RE: *EQT Gathering, LLC – Grant Compressor Station (R13-2615)*
NESHAP Subpart ZZZZ Initial Notification

Dear Mr. Benedict:

EQT Gathering, LLC (EQT) owns and operates a natural gas compressor station located seven miles southwest of Logan, West Virginia off U.S. Highway 119. The Grant compressor station (DAQ Plant ID 045-00122) is currently regulated as an area source of Hazardous Air Pollutants (HAPs) and operates under the authority of permit number R13-2615.

On October 19, 2010, EPA's most recent revisions to the Reciprocating Internal Combustion Engines (RICE) NESHAP at 40 CFR 63 Subpart ZZZZ (NESHAP ZZZZ) became effective. Based on a review of the finalized rule, initial notifications are required for existing stationary spark ignition RICE that are located at an area source of HAPs pursuant to §63.6645(a)(2). However, pursuant to §63.6645(a)(5), stationary RICE that are not subject to numerical emission standards are not required to submit an initial notification. EQT operates stationary SI RICE at the Grant compressor station that are subject to initial notification requirements; therefore, attached please find the applicable information required for an initial notification pursuant 40 CFR §63.9(b).

If you have any questions or comments about the information presented in this initial notification, please do not hesitate to contact me at (304) 348-3841 or via email at hwalker@eqt.com.

Sincerely,

EQT GATHERING, LLC

Heather Walker
Senior Environmental Coordinator

cc: EPA Region III

ATTACHMENT

NESHAP ZZZZ INITIAL NOTIFICATION

Initial Notification of Applicability

National Emission Standards for Hazardous Air Pollutants:
Stationary Reciprocating Internal Combustion Engines
40 CFR part 63, subpart ZZZZ

☒ Yes, I am subject to 40 CFR part 63, subpart ZZZZ National Emission Standards for
Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines

NAICS code(s): 211111

Compliance Date: ☒ Existing (before 6/12/2006) source: Oct 19, 2013

☐ New/reconstructed (on or after 6/12/2006) source: Upon initial startup

Note: The Oct 19, 2013 compliance date for existing sources applies to the following engine types:

- Existing stationary spark ignition (SI) RICE with a site rating of less than or equal to 500 brake HP located at a major source of HAP emissions
- Existing stationary SI RICE located at an area source of HAP emissions

Company name: EQT Gathering, LLC

Facility name (if different): Grant Compressor Station

Facility (physical location) address: 7 miles southwest of Logan, WV off US Highway 119

My facility is a (please choose one): ☐ Major source ☒ Area source

Owner name/title: EQT Gathering, LLC

Owner/company address: 550 Eagan Street, Charleston, WV 25301

Owner telephone number: (304) 348-3841

Owner email address (if available): hwalker@eqt.com

If the Operator information is different from the Owner, please provide the following:

Operator name/title: Same as owner

Operator telephone number: Same as owner

Operator email address (if available): Same as owner

Brief description of the stationary RICE at the facility, including number of engines and the site-rated HP of each engine:

- Compressor Engine #5 – Caterpillar Model G3412CL
 - 4-stroke lean burn engine, 638 hp
- Compressor Engine #6 – Caterpillar Model G3412CL
 - 4-stroke lean burn engine, 638 hp

I hereby certify that the information presented herein is correct to the best of my knowledge.
